

Submitter: Kim Coleman

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

I adamantly oppose HB 2025. At a time when the average Oregonian is struggling to make ends meet, this bill will cost us over a billion dollars. I can't afford more tax on gas, more taxes on wages, more taxes on tires, more taxes on new car purchases, more and more and more taxes. I'm a teacher and my wages cannot keep up with the way that Democrats want to tax Oregonians. Find a different way. This bill inequitably burdens the lower and middle class. If you actually care about the welfare of the lower/middle class, you will not impose this bill upon Oregonians. Stop taxing us to death.
