Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

I am a senior citizen on fixed income. You are raising taxes which directly depresses my standard of living.

Any hope of ODOT providing a successful outcome on their products is totally lost due to their absolute incompetence in the Hwy 217 overhaul and their failure even on the Hall Blvd bridge and the Allen Blvd and Western Ave debacles. Their administration and direction need to be to be totally revamped. They don't need more money to squander. They need to actually succeed in some efficient, manifest way (fix the potholes) to restore any kind of integrity. What is the plan to rebuild Hwy 6 to Tillamook that is falling into the ravines?
