

I strongly oppose this HB2025. Oregonians are already overtaxed. Raising the price of fees and gas will make Oregon even more expensive. Democrats claim to champion the poor, but bills like this worsen poverty, homelessness, despair, and government dependence. They claim to care about mental health, but this will create more distress and hopelessness. This is theft from the people when they can't even vote on massive tax hikes that will adversely affect their lives. The greed in this bill, and lack of concern for the outcome for citizens, is audacious. Vote NO on impoverishing Oregonians. Manage your budget responsibility instead.
