

Submitter: Josh Dickie

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

This bill is unreasonably outrageous, and will be a severe cost impact to myself and my family, as well as my community. The cost of everything is increasing without a true warranted reason, all while there are an abundance of homeless youth, homeless adults, and even worse than that homeless veterans. This bill will only create an unreasonable burden onto the people of Oregon when prices are already far too high. If the bill passes you can guarantee this will financially impact hundreds of people throughout Oregon and more than likely further increase the number of people losing their homes and or needing to seek out financial help from the state of Oregon to buy food, which is already a ridiculous process. I firmly oppose this bill.
