

Submitter: Jeff Erwin

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

I urge you to oppose HB 2025. We demand accountability of ODOT. The mismanagement of their funds is obvious to all. Oregon households are struggling with the rate of inflation, water & utility increases, property tax increases, CAT taxes, payroll taxes, Tri-met taxes, government fee increases. Also skyrocketing medical and auto insurance. Oregon leadership policies have increased the cost of everything with zero accountability on where our tax dollars are being spent. We are required to live within a budget; our government should as well. Every year there are more and more taxes and fees. These fees and taxes are destroying the quality of life in Oregon. Over taxation needs to stop in Oregon, this doesn't benefit the people of this State who are working hard just to survive. Stop punishing the people of this state with over regulation & taxation.

Vote NO on HB2025.
