Dear House Committee On Rules,

I am writing in strong opposition to SB 243. It is disappointing to see our elected representatives continue to pursue bills that restrict law abiding citizens while ignoring the criminal element involved in the majority of violent gun crimes. A quick Google search of questions such as “are the majority of gun crimes committed with legally owned firearms” and “do gun control laws work to reduce crime rates” will provide enough articles and studies to make most people question why this is still an area of focus. Please stop beating a dead horse- our state needs to shift focus to other areas of concern, such as correcting the trajectory of our schools and the mental health of our youth.

Sincerely,  
Cheyenne Love
