Once again our Democratic politicians are getting ready to do a number on the residents of the state. So much is already unaffordable, so let's pack on more fees. Oh... can't get a sales tax, so let's just increase the daylights out of any fee we can think of. Sounds typical. I can't wait until the next election. Going to vote out anyone who voted for or sponsored this useless legislation. Maybe get your spending under control? Now there's a thought.

Signed,

Oregon
