Committee:	House Committee On Rules
Measure, Appointment or Topic:	SB238

I SUPPORT [SB 238 A].

Screw this piece of socialist crap.

The Law Enforcement Agencies have satellites that can peer down on properties during heavy rain, sleet and snow and the Legislature is trying to shackle those who protect us from harm, waste time and precious taxpayer money to thwart their life-saving efforts.

All Law Enforcement Agencies should be able to operate "unmanned aircraft (Drones)" whenever they see a need to do so without "warrant" and or actions by any Attorney issued complaint to the courts.

No one owns the "airspace" above his or her properties. Besides, sophisticated surveillance operations can operate at distances away from targeted properties and or illegal activities by "unmanned aircraft."

David S. Wall

Mr. Oregon Concurs and says, "Law Enforcement Agencies are our friends and need our help to "take a bite out of crime" thereby suppressing the actions of the criminal element."
