Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

I implore you to represent the majority your constituents, for once. Do the right thing, for once. Live within your budget or change your spending, for once - just like everyone you claim to represent has had to do under your reign of terror. Taxes on Oregonians are already absolutely outrageous and to propose even more taxing is beyond outrageous. Think of Oregon families trying to scrape by, instead of yourselves, and you'll realize the fair and right thing to do is vote NO on more taxes.
