STOP with the taxation. I live on a fixed income and you are taxing me out of my ability to afford living in OREGON. I've lived in Oregon since 1973 and have seen decline in services and capabilities. Roads are worse, education is worse. We pay MORE nationwide for LESS. Please apply a DOGE mentality to STRIP unnecessary spending. Look closely at how Oregon schools funds supplies. Look at ODOT excesses, fraud and abuse that we know darn well is rampant. If this continues, you will lose more and more constituents to more competitive (tax) state.
