Measure, Appointment or Topic: HB2025

The bill charges EVs the same road tax equivalent of a 20 mpg vehicle, which is incredibly unfair. This does not promote EVs and clean air, it actually does the opposite. Also, I don't see "medium speed electric vehicle" defined. Thirdly, all road taxes, whether for gas/diesel vehicles, hybrids, or EVs should include a WEIGHT component. Heavy vehicles cause more damage and should pay more. Weight is on all DMV titles so this should be doable.
