I am writing in opposition to this bill. It amazes me that our state and local officials continuously pass legislation to raise taxes when there does not seem to be any accountability for the taxes already collected for transportation (or any other) needs. Most residents already work 3-4 months of the year to pay our federal, state, and local taxes. Enough is enough! The average person has to figure out how to survive and even thrive within a tight budget framework....its about time our state government do the same!
