

Submitter: Shannon Grimm

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

Dear Co-Chairs McLain and Gorsek and Members of the Committee. Public transit is one of the most important resources for our communities and we need to help fund it as much as possible. As a student at Portland state university I rely on public transit to get me to class. With out public transit I would be forced to rely on borrowing my parents car which will often not be possible and when possible will cost significant amounts of money for parking. I urge you to support public transit as much as possible for me and the many people who also rely on transit.

Thank you

Shannon Grimm
