

Submitter: Steve Pitzel

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

HR2025 is, at its best, a reward for the utter incompetence of ODOT at this point. Please don't follow California any further down the path of taxing hardworking citizens in an effort, not to make our lives better, but to make it impossible for anyone but multi-millionaires and the homeless to exist on the west coast. Oregonians have seen a terrific increase of taxes on water and other services while an incredible amount of money has been wasted on homeless shelters the homeless will never use and unconstitutional and irrelevant DEI programs. Vote no on HR2025.
