Committee:

Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

Why can't our representatives realize that we don't need have additional taxes foisted on their constituents. The goal should be to cut back on the spending that the state of Oregon seems to want to always increase. Please reconsider this additional taxing bill. ODOT needs to be reigned in and be audited on an annual basis by an independent non biased organization, not just representatives of state government.
