

Submitter: JOHN Pieri

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

Raising taxes is a confession of incompetent government money managers. That's why I say no new taxes but new, competent money managers. A billion dollar tax means 1 thousand 1 million dollar expenditures, and that is ridiculous unless you are getting the kick backs, which means misfeasance, needing firing of such personnel, right? So, go ahead, make our day, we will find out who they are and hold them accountable for this Great Train Robbery of a bill! We The People can not be railroaded to accept this sort of legislation, you work for us, not yourselves, so go ahead, think about its approval, but be certain there are consequences, if you vote in favor, as accomplices, in a Great Train Robbery, like this BILL, if passed.

Citizen John
