House Committee On Rules

Measure, Appointment or Topic:

SB243

I am deeply involved in the firearm industry and am the possessor of an FFL and operate a store front. On top of all of this I am a veteran of 20 years in our illustrious ORANG serving several deployments overseas. I am thoroughly disgusted by the infringements that are being ramrodded through by this legislature. Binary triggers, forced reset triggers and the bump stocks are being used as buzzwords to stir up the populace, when used they make the firearms harder to control, the owner's bank account smaller and they do not serve as a threat to society; if anything they make the user of them disadvantaged.

Restricting where individuals can or cannot carry or "safe zones" only endangers the law abiding. The criminals will not abide by these laws. You are making the community more dangerous.

Last, this is an emergency? Please point out where any of these items are being used by "law abiding" citizens and constitute an emergency. Shame on you for mistitling this bill, rename it for what it is "PROTECTING THE CRIMINALS FROM THE LAW ABIDING ARMED POPULANCE."
