

Submitter: Thomas Troutman

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

It's hard to believe that the Democratic Party thinks that the working class of Oregon citizens can keep funding mismanaged mistakes. This is not the way to fix Oregon or make it better how long is it going to take before they chase people and businesses out of the state before they wise up to tax and spend. We don't have a income issue it's a spending problem. You are totally ruining this once great state it looks more like California every year.
