

Submitter: Dale and Corinne Stennett

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

We have just received four years of out of control inflation with unsustainable cost of living increases. We agree that an increase in the fuel tax is appropriate in order to cover inflated costs of construction, maintenance, etc. However, there is absolutely no justification for raising registration and title fees! HB 2025 needs to be revised downward in costs to an already overtaxed people before passage!!
