

Submitter: Ronald Belnap
On Behalf Of: Oregon voters and taxpayers
Committee: Joint Committee On Transportation Reinvestment
Measure, Appointment or Topic: HB2025

30 years of working as a private contractor for ODOT on projects all over the state. ODOT currently wastes and mis spends well over have the money they receive. They. Have extremely poor project management, their plans and specifications are poorly done, they are self completing millions of dollars of work than can be done by private contractors far more economically and efficiently. Millions of dollars is invested in underutilized equipment. It should be sold. Prevailing wage is not prevailing, it is union wage, implemented and monitored by BOLI, which is union. Politicians should represent the people, not the union contributors and vote this down.
