Measure, Appointment or Topic: HB2025

As an Oregon citizen I highly opposed HB2025. This is taxation without representation. Taxes are to be voted on per the Oregon constitution. This bill just raises costs with out ODOT taking accountability for “miss placing” funds Most of these funds are used for Portland not the rest of the state. The lack of accountability in ODOT is shameful. The Republicans have put forth a plan that wouldn't[t raise taxes or fees and still have ODOT core services.

I oppose all aspects of HB2025.
