Measure, Appointment or Topic: HB2025

With cost already high why would the Democratic lead Oregon legislature even consider raising taxes on the areas this bill will affect. It will impact low and middle income families who depend on reasonable taxes to keep a voters head above water. Raising the gas tax is unbelievable and if our representative John Lively votes Yes he should be ashamed of taking more money out of the pockets of his constituents who really cant afford it. It's the elites Democrats who continue to drive these money grabbing bills. And now you also want to rob everyone of their tax kicker refund. Shame on the governor.
