

Submitter: Jeff Helget

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

Please stop raising the costs for Oregon businesses. The fee increase for dismantlers may very well be a death sentence. Look up the most recycled consumable, it's the automobile. We are the pioneers of recycling. Where are all of the old broken down cars going to end up if you run the dismantlers off? They will litter the streets. Illegal activity just becomes the norm. Sad. Please help.
