Measure, Appointment or Topic: HB2025

I strongly oppose HB 2025 This Bill is much too large and is a wish list, at taxpayers' expense. We Oregonians are already financially burdened and over-taxed beyond what our budgets can afford. Families are struggling, seniors are struggling, and this HB 2025 will put intolerable taxes and stress in all areas of our lives. I join the multiple number of people and families who are expressing the unsustainable hardships that HB 2025 will place on them. Please listen to the strong opposition expressed from the people that you represent. Please vote NO on HB 2025.
