

Submitter: Sarah Reuber

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

I oppose this because Oregon is already too expensive. Our tax money is not being spent properly. The representatives who are voting on this ... If they approve it, they are going against what most people want. Everyone I know opposes this bill.

EVERYONE. We should be voting on this as we the people, not have a few people vote for the rest of the people in the state. Who's fault is it that these prices were not adjusted gradually? Not ours!!!! Find another way to fund it. How about you start by not lining your pockets with our taxes!!!!????
