

Submitter: Richard Campbell
On Behalf Of: Self
Committee: Joint Committee On Transportation Reinvestment
Measure, Appointment or Topic: HB2025

As a retired person and former businessman, I strongly oppose the tax increases in HB 2025. You are destroying this fine state and driving successful people away. Should this bill pass, I will work vigorously to defeat it through referendum, and I will work to defeat any elected official who votes for it. We have had enough. The Legislature must control spending and become fiscally responsible.
