Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

I'd like to voice my support for funding the Frog Ferry for service to Portland and beyond. We have an underutilized transportation resource in the Willamette River, and a ferry service would be a fantastic addition to our transportation options. As a resident of a waterfront area in Portland, I would love to use the ferry with my bicycle to expand my range of areas to visit in the city. I think it would also be a great benefit to tourism and great way to activate the Portland Waterfront. Please consider supporting at least the pilot stage of this project.
