On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

Oregon leadership has already proven they can't manage the funding they have been provided as evidenced by the homeless, crime, and economic problems the residents of the state have to deal with. Increasing taxes is another slap in the face to people who are leaving in large amounts. I would love to see audits of the State government but I don't beleive we need to slide in more taxes and try hide them under the guise of an audit bill.
