

Submitter: Donald Reynolds
On Behalf Of: All Rural Oregonians and myself
Committee: Joint Committee On Transportation Reinvestment
Measure, Appointment or Topic: HB2025

HB 2025 is another aggressive affront on rural Oregonians ability to live a normal prosperous life outside of the filth, strife and decay of urban living. Because we choose to live outside the confines of "city living" the downside os that we have further to drive to do taks that city dwellers take for granted. My family goes to town no more than once a week to do many tasks which city dwellers can walk or take public transportation to. We also live/work on 40 acres of timberland. Because of the roughness of terrain most of the equpmtent is diesel because reciprocating motors do NOT have the power needed to do the work. We love our lifestyle and find this bill onerous and destructive to the rural lifestyle.

Finally, this bill like most is just another redistribution of wealth to other factions,geographic areas and who knows what "slush fund" the dem's can think up to enrich yourselves/personal lifestyle. We are losing people with children by the day to other locations, our cost of living has been driven up by your tax and spend policies and the quality of infrastructure and access to people accountable for this fiasco is tatally in decline. Entropy will win in the end thanks to feckless blinding thoughts that try to refute reality and I just do NOT see how you can look at yourself in the mirror when you think up monstrosities such as HB 2025.

Sincerely,
Donald and Deborah Reynolds
