

Submitter: Amy York

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

My name is Amy York and I am a lifelong Oregonian. I oppose HB 2025. There is no reason to ask for more money for transportation. We already have some of our pay going to transportation, lottery money, property taxes, as well as income taxes. We should have the best infrastructure in US already. By asking for more money I have to wonder how much is going to line people's pockets. Our roads are horrible especially in Central and Eastern Oregon, but yet we pay billions of dollars of our hard earned money to infrastructure. I completely oppose this bill. Thank you.
