

Submitter:

Marjorie Heuberger

On Behalf Of:

Committee:

Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

This bill is appalling! Many people in this state are still having a hard time putting food on the table, caring for their kids and/or parents, paying the rent, taking care of the vehicles to get to work, etc..and now you want to tax us all even more? And for such an exorbitant amount! We all know our roads need work...where, when and how are the funds you have being put to good use? Are you making sure the money is not wasted? Please don't put the squeeze on everyone - do not let this go through!
