

Submitter: Gearl Seal
On Behalf Of: Social Security
Committee: Joint Committee On Transportation Reinvestment
Measure, Appointment or Topic: HB2025

To Whom it may Concern

I live on social security only and all these new taxes would have a devastating effect on my life and the lives of all social security recipients. In my opinion the Oregon government again wants to penalize its citizens instead of doing the tough job of cutting waste and fraud from the budget. It's easy to place the burden on the citizens instead of really cutting out the special projects and wasteful special projects of legislators and actually do what's right for Oregonians. The current Oregon government is the worst I've ever seen in Oregon and I've lived here for 74 years.
