

Submitter: Brett Horner

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

Please sign on to the legislator sign-on letter that is circulating today by 2 pm to share your support for safety and transit investments already in HB 2025 and for Senator Gorsek's amendment to HB 2025 to fund Oregon Community Paths and electrification through a luxury vehicle tax. This tax would only affect Oregonians who can afford to buy luxury cars costing more than \$75,000, and would improve safety for everyone walking and biking in our district by making funding available to close gaps in our regional trails system and support other off-street connections.
