

Submitter: Heather Kent  
On Behalf Of: NA  
Committee: Joint Committee On Transportation Reinvestment  
Measure, Appointment or Topic: HB2025

Dear Committee Members,

I'm writing in support of safety and transit investments already in HB 2025 and for Senator Gorsek's amendment to HB 2025 to fund Oregon Community Paths and electrification through a luxury vehicle tax. This tax would only affect Oregonians who can afford to buy luxury cars costing more than \$75,000, and would improve safety for everyone walking and biking in our district by making funding available to close gaps in our regional trails system and support other off-street connections.

These community paths are such great transportation options for communities and make biking and walking safer and more convenient. We need more choices and to support this important and growing system that reduces our reliance on cars and other vehicles.

Thank you for showing your support for the health and well-being of people and the planet by supporting these investments and this amendment!

Heather Kent
