

Submitter: Ervin Jones

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

Enough with hidden taxes! It hasn't been so many years, since the legislature greatly increased the cost of titling and registering vehicles in Oregon. These onerous increases (still in place) were touted as the solution for roads and bridges around the state. These new and increased fees add to the many regressive taxes collected by the state, counties and cities. If the Oregon Legislature chooses to increase the already high tax burden on Oregon's residents, in lieu of controlling expenditures, have the courage to raise the progressive tax rates. Stop hiding behind 'necessary' fees! Thank you.
