We are regular voters in HD45 and I have lived in Portland over 55 years. Even though our gas prices & taxes are among the highest in our country, we have watched our roads deteriorate without repairing them, while at the same time we see lanes taken away from cars & given to bicycles who do not contribute via gas taxes. And now we watch the traffic back up for as many as 12-15 blocks where a car lane was taken away & we see no bikes in the bike lane that was created. So we would like to see an accounting of our tax dollars & what they are being spent on. And we absolutely oppose even higher gas taxes than they are already!! Respectfully yours, JC & family
