

Submitter: Jennifer Voneynern

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

I oppose HB 2025. Oregonians can not take any more tax increases. Our family already pays more for food and gas. The state of Oregon needs to learn to tighten their belt and quit wasting our tax dollars. I have seen the stupidity and waste first hand at my job. My son has an opportunity to buy a very successful construction business, but the state is making it harder and harder for businesses to make a profit and is chasing successful businesses out of Oregon. Two of my four sons have already left the state and another will leave as soon as he graduates college. Why are successful hard working young adults leaving the state? DO NOT PASS HB2025!!!!
