

Submitter: Paul Yackey

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

As a senior citizen, age 75 As a senior citizen 875 living off of Social Security with inflation companies jacking up all the pricing food at the highest level of cost I just can't afford it living in Oregon is not a people friendly it's dominated by Socialist that are determined to take all of our money a little bit at a time and this is one of those things that is not needed the kicker needs to to stay and this whole house or your Senate House and Senate would however you say it needs to to cut back on this crap. I didn't get to punctuate properly. I find your taxations not only cumbersome but burdensome on all people not just people on Social Security and even with a 401K with the four years of of Biden and the inflation has created a nightmare for senior citizens. The Democrats should leave should leave governing to people with fiscal responsibility
