

Submitter: Mark Gentle
On Behalf Of: self
Committee: Joint Committee On Transportation Reinvestment
Measure, Appointment or Topic: HB2025

Members of the Committee,

In my 40 years of being in and around government, I do not recall having seen the democratic party act with such recklessness in placing an economic burden so unfairly on ordinary people. In case you have not heard the news, major employers are leaving Oregon in droves. Why? High taxes and unaccountable governmental entities and poor education.

We are NOT getting what we are paying for. After 2 and 1/2 years in Oregon it is not at all certain that the state will remain a viable location for my family much longer. In the meantime, please know that the taxes in this bill will come back to haunt each of you who vote for it.

Sincerely,

Mark Gentle
