Measure, Appointment or Topic: HB2025

The working taxpayer/citizens of Oregon prefer HB 3982 which will cut some of the unwanted spending on climate change and other political efforts which are supported by only 2% of the people in this state. We are all watching how each person votes on this bill, should it get that far this session and will be sure to share all the public information with all the social media and other media outlets we can.

It's time you start working for us, which is what you were voted in to do in the first place.
