NO on HB 2025. It is nothing more than a gigantic tax grab by the democratic supermajority. The democratic supermajority tax policies and anti-business atmosphere has already caused one home grown company to leave Oregon for Arizona. This unjustified tax grab will accelerate the exodus of businesses leaving Oregon for 'greener pastures.' Absolutely NO on HB 2025. The democratic supermajority must think they are pretty smart by waiting until the end of the session to shove this bill down the peoples throats. Oregonians are up to their shady, shifty little tricks. I cannot for this to get on the ballot where it will be soundly trounced.

Thank you,
