I believe that more taxing of the citizens in this case will only cause more financial hardship for those living here, and won't see any benefit for the time being. It's said this will bring in \$1Billion in taxes, which also happens to be the estimated loss on tax revenue due to some of the wealthier population exiting the state. Please stop the nonsense taxing. I've lived in red & blue states, and U.S. territories. This is the worst I've seen in collective tax measures. Please take all of your constituents into consideration.
