Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

To Whom It May Concern,

I am writing to voice my strong opposition to HB2025 as referenced in your recent notice. As a concerned community member, I urge you to consider the significant harm this tax would cause—especially to low-wage earners who already struggle to make ends meet.

Many of these individuals are SEIU members—essential workers who provide critical services in healthcare, public safety, custodial work, and long-term care. These workers are already living paycheck to paycheck and cannot afford further financial strain. Imposing additional taxes on their limited income would only worsen economic inequality and housing insecurity.

This proposal lacks adequate consideration for its disproportionate impact on working-class families. If passed, it could force many into deeper hardship or even out of their homes, while offering little in terms of clearly defined benefits or protections for vulnerable populations.

I respectfully urge you to reject HB2025 and instead prioritize equitable, transparent solutions that do not place the burden on those least able to afford it.

Sincerely,
Krysha Mcmillin
