Measure, Appointment or Topic: HB2025

We cannot afford new taxes of over \$1 Billion dollars. ODOT has continued to show that it has no clue on how to budget. They have demonstrated that they cannot manage the job. This bill continues to use and support Toll language that the taxpayers have constantly told you NO on Tolls. Get rid of bicycle programs; turning highways into bike lanes and everything that is not directly related to roads for motorized vehicles, your core purpose.
