

Submitter: Ogaenia Calkins

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

I do not support passage of HB2025. Oregon is one of the highest taxed and less affordable states in the union and we don't even have a sales tax. Not everyone has or let alone can afford an electric car. The people have spoken on this matter over and over and we don't seem to be getting through. I guess you're going to hear loud and clear come election time.
