

Submitter: Diane Reynolds

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

As a senior citizen still working to survive at age 78 this increase is unsustainable. In addition to this I am the president of a local McMinnville Non- Profit working daily to reach out and assist those working through various SUD and MH complications. Once into recovery from these Behavior Health situations, this increase in taxes will cripple their ability to sustain their own lifestyle and skills. We are already taxed pretty heavily in Oregon. Our citizens cannot withstand more.
