Cameron Hansen

On Behalf Of:

Committee:

Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

These taxes will kill my small mobile business without having to increase my prices again. Do to the lack of leadership and ability to provide proper use of my tax dollars. You are asking for more because you are not good stewards of the money you receive. Other states make things work with what they have much more efficiently than Oregon. Your desire to create project to fix other projects you have failed at is a lame excuse for lack of talent as leaders. Please do not pass this bill. It is not in the people's best interests, but in in the states government to take more than they can offer in return.
