Opposition for HB 2025

Tri - Met ridership has fallen by 1%. Tri -Met has always been top heavy. They have failed to live within their budget for years. Monies allocated for transportation should be dedicated for maintaining the roads, bridges, snow plowing in the winter and tunnels. If you live in a rural area (even outside of the urban growth) you take it in the seat of the trousers. Why should 30 counties out of 36 counties fund 6 counties for their public transportation and 1000 Fiends of Oregon.

Thank you,

Gladys Pace
