Measure, Appointment or Topic: HB2025

This bill is absolute bullshit.

You assholes can't even audit a fucking agency to save your lives and you want to fuck us over with more taxes to pay your buddies off in the public sector?

HELL NO to voting for this bill - we are screwed already by living in this state where jobs keep vanishing but the government of pork keeps growing.

Maybe layoff 20 % of government employees first and then we can talk.

Burn in hell!
