

Submitter: David Wall
On Behalf Of: Mr Oregon OPPOSES HB 2271
Committee: House Committee On Revenue
Measure, Appointment or Topic: HB2271

I OPPOSE [HB 2271].

[HB 2271] is well intended and has many outstanding attributes. Times have changed since the COVID days. American Rescue Plan Act (ARPA) dollars were allocated to many businesses but Oregon is broke and cannot afford anymore "tax credits" and or allocate any funds to administer the program.

[HB 2271] will require the Departments of Employment and Revenue to expand their respective departments to construct the administrative infrastructure, implementation and provide analytical services to support the "Tax Credit" boondoggle.

The State Auditors will be required to take a "sustained peek" every now and then and this too is going to cost.

*** [HB 2271] is 'rife' for corruption.

** [HB 2271] has 'No' Budget allocation or identified Funding Source(s) to construct the administrative infrastructure, implement the program and provide analytical services of the ill-advised 'tax-credit' scheme.

** [HB 2271] is hereby declared incomplete and therefore is an incompetent piece of Legislation.

*** [HB 2271] as incompetent Legislation, should be rejected and denied (with extreme prejudice).

Mr. Oregon Concurr and says, "Can businesses who employ and take unfair advantage of Illegal Aliens, participate in the 'Tax Credit' scheme before I.C.E. captures and deports them or just afterwards?"
